SUMMARY

Master of IT (Software Development) student with four years of COBOL programming experience within the financial sector. I have built strong problem-solving and logical thinking skills throughout my career. During my studies at university, I have been developing projects using Java, PHP, and Laravel. I am seeking an internship to utilize and expand my technical knowledge whilst collaborating with a diverse team on real-world challenges in Australia.

PROFESSIONAL EXPERIENCE

Consultant - NTT Data Thailand | May 2021 – October 2022

- Developed and maintained COBOL programs for credit card security within Kasikorn Bank (Thailand's 2nd largest bank and ranked 9th in ASEAN).
- Built and maintained test programs to support various scenarios and environments.
- Conducted pre-testing to ensure product stability, accuracy and performance.
- Worked within strict client requirements to deliver reliable, high-quality solutions.

Associated Software Developer - SS&C Technology Thailand | June 2018 - May 2021

- COBOL financial programming for a provident fund.
- Worked in a support team which will research and find the solutions to solve programming problems/errors on tickets.
- Professionally handled issues within production by investigating, troubleshooting and determining root causes.
- Collaborate and worked with the Technical teams, and the Business teams.

INTERNSHIP EXPERIENCE

Assistant Researcher at NTU Nanyang Technological University Singapore | June 2017 – July 2017

- Assisted a PhD researcher in designing and coding a web application using Google Maps API.
- Contributed to research activities by supporting prototype development and testing.
- Developed and documented a project standard operating procedure (SOP).
